Bob Giles

Bob Giles started training horses with the loggers of DownEast Maine at age 9. After returning from Vietnam with 3 Purple Hearts returning to training horses was his therapy, and 44 years later he is still breaking young horses to drive, and training people how to negotiate obstacles. He has driven about any hitch imaginable, and has many tricks to help keep new drivers and equines safe and sound during training. Any beginner CDE Marathon driver would benefit greatly from Bob's years of experience of getting them "in the hole"! He also has a great method of cones driving that helps improve any novice whip. He and his wife Brenda own and operate The Winter Hill Driving Center in Morriston, Florida.
